MATTIA, April 29, 9.45 p.m. The Filipino envoys of President Agulualdo, as representing the Republican Government of the Philippines, have saked Major General Elwell S. Otia, the U.S. Governor-General, to proclaim a cessation of hostilities for a period of three weeks, to enable the Filipines to assemble their Convention to discuss the situation and determine whether they should continue to fight or propose terms for the basis of a

treaty of peace. Major-General Otis replied to this proposal with a point-blank refusal, declining to discuss terms with the Filipinos. He offered an amnesty to all political offenders who had taken up arms against the United States Government, but stipulated that it must be a complete surrender.

Reports received here from the rebel lines show that the position of the robels in the violaty of Apalit is absolutely hopeless, Major General MacArthur assailing their lines on the front whilst Major General Lawton's division menages their flank,

THE U.S. COMMISSONERS' PROCLAMATION.

THE ALLEGED VERDIOT OF THE FILIPINO PEOPLE, We publish, below, the following extract

from the Singapore Free Press, the recognized mouthpiece of the Filipine Junta of Hongkong. In view of the proposals made by General Luna for an armistice to discuss terms of peace (vide Special Telegram from Manila to China Mail last night), the high-sounding phrases of the Junta appear rather incongruous, not to may ridiculous. There is a touch of grim humour in the sentence: All representative Filipinos necessarily absent from Manila assisting struggle for independence. If this is so, then President Aguinaldo, the brave patriot; General Luna, and the remainder of the Malolos Republican Government are the morest puppets. This has been asserted from time to time, but indignantly denied by Representa-Ltive Filipinos - and others : but at last we are getting at the truth. The 'Representative Filipinos evidently know on what side their bread is buttered. It is pleasanter junketting in the capitals o Europe-Paris is by no means a bad place for a holiday-or partaking of the pleasures of life in Hongkong than skulking from hamlet to hamlet or jungle to jungle in the Philippins Islands. That is good enough for the deluded rank and file, but not for Representative Filipinos. For our own part, we trust the Filipinos who are bearing the hardships now realise the hopelessuess these were minor matters and were of struggling against the American forces, and that the leading men in the Philip pines, in the interests of the poor sui

> happy Islands :---The following is the text of a powerful telegram sent through Hongkong about a week ago to London and New York to the Associated Press (code address Advertiser.) on the subject of the recent Proclaustion of the Philippine Commissioners to the Kilipinos. It will be seen that these are not disposed to be decrived by a document that provides a mass of vague assurroces for the future, but is careful proctically to endorse the action of President McKinley in his efforts to destroy the orderly administration erected at Malolos by the Filipino people in constituent assembly convoked, and to deny the claim of the race to any individual political rights auterior to those of the negro before President Lincoln's decree of emancipation. The determination of the Filipino people to expend their lives in defence of their liberties remains absolutely unshaken. We aubjoin the text of the telegram exactly as passed over the cables :

HOW TO RECOGNIED A JUNTA. To the Editor of the 'CRIMA MAIL Hongkong, April 28.

Sin, I am very proud of the fact that am able to answor ! Inquirer's question in Who or what is a Philipping Junta I am not susprised that the gentle inquirer should be purified as to what this strange autitution in that has crept into our midst, and become a part of our body politic. In fact, during the early park of American Spanish war I thought the Hong. kong Junta, to which the home papers so continually referred, was a fresh addition to the Zoological Department of Botanical Gardons. I asked a Policeman on Queen's Road one day if he could direct me to the Hongkong Junta, looked a bit frightened for a moment, and teplied. 'Go way wid you, did you take me or a dynamiter?' According to Webster there is a 'Junta,' and a 'Junto.' 'Junta' is described as 'A grand council of State in Spain.' A 'Junto' is 'A select council which deliberates in secret collection of men combined for secret.....intrigue..... a faction; a calad. A Junto is illustrated in the definition by a stanza from Thom-

The bride wore a magnificent white satin dress, with a very long court train, quite plain in design, with a chemisette of white chiffon and a long front of Bomito and a quick run brought white tulle veil and orange blossoms. Mrs. Wheeler, the mother of the bride, looked remarkably well. Her dress was of green satin striped with tiny stripes of gold thread, a cream satin chiffon chemisette, and she wore a green bonnet with turquoise blue trinming. The dress itself was ornamented with jewel trimming. THE CURRENCY COMMETTEE

London, April 10 The second volume of evidence taken before the Currency Committee has been Lord Northbrook deprecated the reopen-

ing of the Mints, which would increase taxation and this would be unwise and dangerous, and he arged that sovereigns be made legal render in India with the fr mintage of gold. He also advocated Imperial grant for the purpose of makit the gold standard effective.

b esars Cheetham and Graham, mi chants, advocated the reopening of the Minis which would ultimately steady e change. In their opinion a gold standar was desirable but was impracticable. Messrs. David Cruickshank and Ruston jes described the disadvantages which he arisen through closing the Mints and far oured a gold standard at fourteen pence.

Sir Alexander Mackenzie declared th

the reopening of the Mints would necess tate a considerable increase of taxation i volving the risk of disturbances. Sir Robert Giffen condemned the closing of the Mints and mentioned incidentally the deficit resulting therefrom which by their reopening would probably be reduced by three to four millions annually if India KOWLOON HOTEL were treated fairly as regards the Home charges. A gold standard was unsuitable

for India because the currency would always be chiefly in silver. Convertibility would remove many objections to the Government scheme, but the reopening of the Mints was the least disadvantageous of the

Mr Romesh Dutt criticised the currency policy of Government and favoured letting the rupee sink to bullion value. In his opinion the reople of India did not desire a cold standard.

Sir John Lubbock said a gold standard was impossible without a gold currency which was not suitable to India. He fav oured maintaining the value of the rupee by the imposition of a heavier import duty on silver. With this and the seignorage it might be possible to re-open the Mints. Mr Robert Barclay, President of the Manchester Chamber of Commerce, said the proposal to Government by Mr A. M. Lindsay simed at upholding exchange and ignored the interests of the people. He urged the re-opening of the Mints with concurrent mintage by America at the rate of forty-two pence per ounce.

Lord Fairer said that bimetallism as a solution of the question was impracticable. and the reopening of the Mints would be injurious to trade and ruinous to the finances. He advocated a gold standard with an automatic currency based on gold and having a fixed gold value. The only sound foundation of a gold standard is convertibility. He also thought it desirable to obtain the support of the Imperial Government to establish a gold standard,

Mr Leonard Courtney recommended Government to confine itself for the present to the opening of the Mints to the coinage of gold and in the meanwhile to accumulate gold. The Government, he thought, should not undertake to convert LEASEHOLD AND RECLAMATION rupees into gold.

THE TALVE OF A KIES. A faccinating actives, whose name need not be mentioned, says a London paper, toing anxious to assist a certain charity in the provinces, offered a kies to be put up to austion. The bidding was brief, and

had advanced in three leaps from two guinoas to thirty, when without further parley. the round num of £800 was offered. There being no higher hid, the kiss was knocked down by the auctioneer to a Colonel in one of our line regiments, who came forward to meet the blushing young lady. But to the surprise of all present, the Cononel introduced a dear little fair-haired boy, explained that it was his grandson's fifth birthday, and that he had acquired the kiss as a hirthday wift for him. Whereupon Miss-took the child in her arms and discharged her deht with interest. The charity, a local one, in which the Colonel took a keen interest, was, the richer by £800 for the grand-dad's generous whim. But a little bird whispered afterwards that at the Colonel's dinner-party that night he had one

Hongkong Tides.

The Tide Table given below has been compiled by the Nautical Almanao Office in London from the result of the analysis of observations taken by means of an automatic tide-recording machine in the Water Police Basin at Tam Sha Tsui during the years 1887-8-9.

The sero of the table is Low Water Ordinary Spring Tides, which has been found to be 2 feet below mean see level. To obtain the depth of water on the tide gauge at the Victoria Naval Yard add 5 ft. 7 in, and on the gauge at Lamont Dock, Aberdeen, add 12 ft, 9 in. to the height

STERNWHEEL STEAMERS have been found by experience to be the best type of vessel for shallow river navigation under

many conditions of working, and of these Messrs. Yannow have built a very large number of successful examples for

Vessels on this system are constructed when required, to draw as little as 10 inches.

The construction of shallow river vessels propelled on various systems has been made the speciality of Messre.
